ABM-200

The ABM-200 Airflow & Environmental Meter has all of the features of the extremely popular ABM-100 plus it is wireless and also has temperature, humidity, and pressure sensors. These additional sensors give the meter the ability to accurately measure and record:

- Temperature Differential
- Dry Bulb Temperature
- Wet Bulb Temperature
- Heat Index
- Relative Humidity
- Dew Point
- Barometric Pressure
- Air Density
- Indoor vs. Outdoor Conditions
- Wind Speed/Direction/Gusts

The wireless ABM-200 can be attached to our EXP-64 64” aluminum extension pole (sold separately) to take readings without having to go up a ladder. The ABM-200 connects seamlessly and immediately to smartphones and tablets utilizing Bluetooth Smart technology. Bluetooth Smart (also known as Bluetooth LE/Low Energy) connects over 20 times faster than traditional Bluetooth devices without a complicated pairing process and uses a fraction of the power for long battery life.

Features

- Free app that connects the meter to your smartphone
- Onscreen guidance that makes it easy to take accurate readings
- Ruggedized housing with ¼” 20 mount fitting for handsfree operation
- Emails professional detailed reports from within the app to enhance professionalism and validate work performed

Technical Data

Operational temperature range: -40°F to +185°F (-40°C to +85°C)
Operational temperature range full accuracy: -32°F to +149°F (0°C to +65°C)
Power: Panasonic 3.6V, CR 2450 Coin Cell Lithium Battery
Battery Life: >500 hours
Auto power off 30 seconds after closing or minimizing app or no connection
Units of Measure: inWC, inHg, psi, mmWC, mmHg, Pa, kPa, mBar, fpm, cfm, l/s, m/s, F, C, RH%, lb/ft³

Range & Accuracy

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Range</th>
<th>Accuracy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Airflow Velocity</td>
<td>44 – 12,320 fpm</td>
<td>± 0.5%</td>
</tr>
<tr>
<td>Temperature</td>
<td>-40 to 185°F</td>
<td>± 0.5°F</td>
</tr>
<tr>
<td>Humidity</td>
<td>0-95%</td>
<td>± 3%</td>
</tr>
<tr>
<td>Pressure</td>
<td>300-1100 mbar</td>
<td>± 0.12 mbar</td>
</tr>
</tbody>
</table>

Please note that we are often asked the maximum volume of airflow, this is totally dependent on the size of the duct. For example 12,320 fpm through a 20” x 24” grille is 41,028 CFM. So the range of this meter goes high enough to satisfy any practical HVAC application.
